

The parking post is a robust device with high security padlock to protect your space.

Simply unlock and lift out from the security brackets.

You can even personalise your own company logo or name on the plate.

Removable Parking Post

Carpark Barrier

Heavy duty post and chain for carpark use as carpark barrier.  
Adjustable 10 mm hardened chain with lock, no need for eyelets just use anchor points to feed the length you need.  
Quick and simple.

Use two together to make 4 meter opening to secure the area from unwanted guests.
